- + **EXCEPTIONAL COMFORT**
- + **EASIER CLEANING**

MULTIBECK®

LONG VERSION CS-120 - SPECIFIC FOR TURKEYS

2 PANS FEEDERS IN ONE FOR EACH AGE COMPATIBLE WITH HEAVY TURKEYS

SUCCESSFUL START AND LIMITS THE USE OF ANTIBIOTICS

Maximum feed accessibility from day 1

- ▶ 20 chicks have access to feed at the same time.

Preserved feed quality ▶ Less digestive problems.

Better flock homogeneity ▶ Improved performance.

BETTER CIRCULATION AND OPTIMAL ACCESSIBILITY

Fluid circulation between feed pans ▶ No barrier effect.

Better circulation = less bruising

- ▶ Less losses and seizures.

No perching of heavy birds on the pipe.

Flexible drop pipe

- ▶ Free swing of the feeder without feed wastage.

NO CHANGE OF FEED PAN DURING THE FLOCK

Lower pan ▶ Specific for starting all poultry.

Upper pan ▶ Specific for transition and finishing.

For better feed conversion

- ▶ The lower and upper pans are designed to prevent wasting.

Accessories ▶ The anti-waste collar for turkey can be installed without removing the pan feeder.

LOWER PAN FEEDER
WITH LID

LOWER + UPPER
PAN FEEDER

UPPER PAN FEEDER

UPPER PAN FEEDER
WITH COLLAR

EASIER CLEANING = LESS WORK

No space required

- ▶ The feed pan is attached to the bracket under the pipe.

No dismantling

- ▶ Faster washing.

TECHNICAL CHARACTERISTICS

Highly resistant plastic and flexible suspension system ensure robustness

- ▶ Lower pan: Ø 32 cm, depth: 4,2 cm
- ▶ Upper pan: Ø 29 cm, depth: 9,5 cm
- ▶ With anti waste collar: Ø 40 cm, depth: 14,5 cm
- ▶ Length of drop tube: 120 cm
- ▶ Height of the feeder hanging under the pipe: 32 cm
