- ▶ More hygiene, less work, less bruising
- ▶ Successful versatility
 - Lower pan for starting period
 - Upper pan for turkey's transition and finishing
- ▶ Exceptional comfort

MULTIBECK® LONG VERSION

**SPECIFIC FOR TURKEYS
ADAPTED FOR HEAVY TURKEYS**

**More hygiene, less work,
less bruising**

- ▶ **Multibeck avoids droppings on feed**
It prevents chicks from entering the plate and contaminate the food.
- ▶ **Better accessibility = less work**
Multibeck allows 20 chicks to have access to the feed at the same time, twice more than with a classic pan feeder.
- ▶ **Less time wasted at the starting period** to fill the pan feeders because Multibeck facilitates feed access.

- ▶ **The anti-waste collar** for turkey can be installed without removing the pan feeder.
- ▶ **During the cleaning, Multibeck can remain inside the building.**
- ▶ **Flexible drop tube reduces bruising.**
- ▶ **Better feed hygiene = reduced labor.**

**No need to change the pan feeder
during the entire grow out**

- ▶ **Lower pan** for starting all poultry.
- ▶ **Upper pan** for transition and finishing.
- ▶ The lower and upper pans **are designed to prevent wasting.**

Exceptional comfort

- ▶ Better circulation for poultry and grower, no "barrier" effect, therefore **less bruising.**
- ▶ **No roosting** of heavy birds on the pipe.
- ▶ The flexible drop tube allows free **swing of the feeder without feed wastage.**
- ▶ **No obstruction for cleaning** as the extended version is hooked on the pipe by the lower pan.

Technical features

- **Material:** Very high resistant plastic for an intensive and repetitive use
- **Lower pan:** Ø32cm, depth 4,2cm
- **Upper pan:** Ø29cm, depth 9,5cm
- **With collar:** Ø40cm, depth 14,5cm
- **Length of drop tube:** 120cm
- **Height of the feeder hanging under the pipe:** 32cm
