

2 PANS FEEDERS IN ONE FOR EACH AGE AND SPECIE

- + **SUCCESSFUL START**
- + **LIMITS THE USE OF ANTIBIOTICS**
- + **SUCCESSFUL VERSATILITY**
- + **BETTER CIRCULATION AND OPTIMAL ACCESSIBILITY**
- + **EASIER CLEANING**

MULTIBECK®

SHORT VERSION CS-45 - ALL POULTRY

2 PANS FEEDERS IN ONE FOR EACH AGE AND SPECIE

SUCCESSFUL START AND LIMITS THE USE OF ANTIBIOTICS

Maximum feed accessibility from day 1

► 20 chicks have access to feed at the same time.

Less work at starting period ► Reduced use of start feed pans.

Preserved feed quality ► Less digestives problems.

Better flock homogeneity ► Improved performance.

SUCCESSFUL VERSATILITY

Lower pan ► Specific for starting of all **poultry** and finishing **broilers**.

Upper pan ► Specific for **turkey** or **duck's** transition and finishing.

For better feed conversion ► Lower and upper pan are designed to prevent wastage.

No need to change the pan during the growing period or a change of production.

Accessories ► Collar for turkeys or ducks and grill for guinea fowls can be installed without removing the pan feeder.

LOWER PAN FEEDER WITH LID

LOWER + UPPER PAN FEEDER

UPPER PAN FEEDER

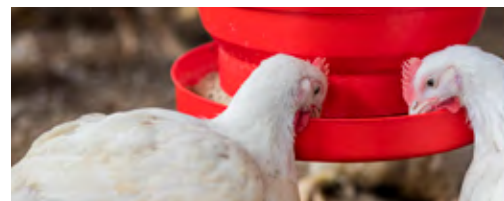

UPPER PAN FEEDER WITH COLLAR

EASIER CLEANING = LESS WORK

No dismantling, even in low high ceiling.

PATENTED INNOVATION

ROTATION OPTION

The Multibeck® feed pans are simultaneously tilted by 90° and held in place by a blocker.

Faster washing and less space required.

TECHNICAL CHARACTERISTICS

Highly resistant plastic and flexible suspension system ensure robustness

- Lower pan: Ø 32 cm, depth 4,2 cm
- Upper pan: Ø 29 cm, depth 9,5 cm
- With anti waste collar: Ø 40 cm, depth 14,5 cm
- Height of feed pan under the pipe: 45 cm
- Height of feed pan hanging under the pipe: 32 cm
