SPECIFIC FOR BROILERS

MAKE THE DIFFERENCE FROM THE START

- + **SUCCESSFUL START**
- + **LIMITS THE USE OF ANTIBIOTICS**
- + **BETTER CIRCULATION AND OPTIMAL ACCESSIBILITY**
- + **EASIER CLEANING**
- + **SUITABLE FOR HEAVY BROILERS**

MULTIBECK®

EXTRA-SHORT VERSION CS-24 - SPECIFIC FOR BROILERS

MAKE THE DIFFERENCE FROM THE START

SUCCESSFUL START

Less digestive problems ▶ Chicks outside the feed pan.
Maximum feed accessibility from day 1.
Same feed pan from day 1 to finishing.

LIMITS THE USE OF ANTIBIOTICS

Avoids contaminated feed ▶ Palatability and freshness of the feed.
Preservation of feed quality.
Better flock homogeneity ▶ Performance gains.

BETTER CIRCULATION AND OPTIMAL ACCESSIBILITY

Low feed pan circumference = circumference of the feed
▶ optimal accessibility to the feed.
Fluid circulation between feed pans ▶ No barrier effect.
Better circulation = less bruising ▶ Less losses and seizures.
Narrow trough = anti-waste design.

HEN COVER
VERSION

VERSION WITHOUT
COVER BROILERS

MORE EFFICIENCY AND LESS WORK

No dismantling, even in low high ceiling.

PATENTED INNOVATION

ROTATION OPTION

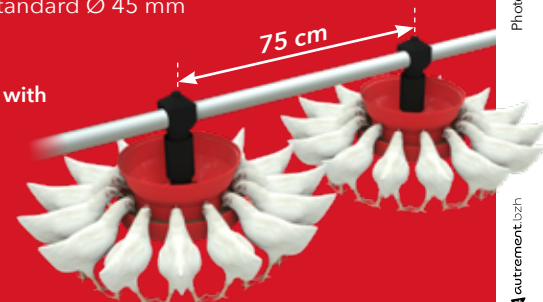

The Multibeck® feed pans are simultaneously tilted at 90° and held in place by a blocker.

Faster washing and less space required.

TECHNICAL CHARACTERISTICS

Highly resistant plastic material for intensive and repetitive use.

- ▶ Feed pan: Ø 32 cm, depth: 4,2 cm
- ▶ Height of the feeder under the pipe: 24 cm
- ▶ Conveyor pipe diameter: standard Ø 45 mm (up to 51 mm possible)
- ▶ Lid for feed pan optional
- ▶ Optimal access to the feed with 75 cm spacing
